

# Hub & Spoke

The 6clicks Hub and Spoke model for centralized GRC practices helps organizations manage a hierarchical business model. Complete with ready-to-use content for immediate assessment, reporting and ongoing management.

Hub & Spoke enables large organizations to:

- Easily manage autonomous GRC programs across subsidiaries, depts, regions, franchises, private equity portfolio companies, service clients, healthcare networks, university systems, state municipalities, etc.

- Curate a single-pane-of-glass GRC landscape regardless of how many separate entities your organization is required to manage
- Content within the 6clicks marketplace can be tailored and made available for each of the tenants
- Holistically manage your security and risk posture at the hub, while entities mature at their own pace
- Template reporting across entities to ensure real-time and holistic risk reporting
- Reduce audit fatigue and alleviate the hassle of tracking down data across entities
- Integrate bi-directionally with current systems and bring all GRC and Security data into one platform
